All Saints' Day School

March Birthdays

Last month in chapel we celebrated our **March** birthdays for: **Emily, Leighton, Emmett, JoJo, Luca!** We wish them a very happy year ahead!

Gelati Celesti Night

Thank you to everyone who came out to our Gelati Celesti PATTC event. We hope you enjoyed some tasty treats while supporting our school. We love to get out in our community and support local businesses that in return support us! Hope to plan more events like this in the future!

From the Classrooms

Teachers Stephanie & Leslie

We moved onto learning about life cycle of a butterfly and finished the month by learning about weather. We even became meteorologists for the week. Our Sea Otters made lots of fun crafts, learned the letters C, Z, W and the number 8. We are all happy the weather is warming up and continue to love our recess time!

The Sea Otters started the month by learning about the lifecycle of a chicken and even learned the "Chicken Dance"! We then prepared for and celebrated St. Patrick's Day by building a trap to try and catch a leprechaun, but weren't able to catch the little rascal.

Teachers Susan & Madison

March was a fun month in The Stingray Class. We learned the letters Ii, Rr, Kk, and Bb. Our sight words were I, red, kite and be. We had such a great time with our rainbow experiments. Creating fun kites that flew a little bit was also awesome. Our St. Patrick's Day Theme resulted in a crazy week. Making pots of gold, putting together a leprechaun trap, and discussing St. Patrick were just some of the fun times we had in our class. The leprechaun got away but not before he created a mess in our room and bathrooms!

We are still working on simple addition problems, counting by 5's and 10's, using greater than and less than signs and discussing odds and evens.

The Stingrays had a great month, and we are looking forward to April!

Teachers Sandra, Beth & Terry

Starfish students started the month of March continuing to learn about dinosaurs and volcanos. We made an exploding volcano in class.

Weather events were also studied in the Starfish class this month. We learned about tornados, hurricanes, wind, rain, clouds, lightning, thunder, and rainbows. The children were weather reporters every day during Circle Time. They looked out the window and reported what type of weather day it was going to be.

Our ASDS leprechaun was on the loose during the week of St. Patrick's Day! The children went on a scavenger hunt using clues the leprechaun left in different rooms at school. They were pleasantly surprised to return to the class to find a green cauldron filled with gold chocolate nuggets. We made leprechaun hats to use during the hunt.

The leprechaun was very mischievous. We made a trap for him, but we were not able to catch him. He left the room a mess, but he was nice enough to leave the bucket filled with gold coins for the children to share.

Spring has finally sprung, and the Starfish students found several signs of spring outside. We noticed the trees were budding and the flowers were blooming. We heard the birds chirping and the wind chimes making lovely music as the wind blew through them. We talked about how you might see a rainbow after a rainstorm in spring and created a frozen rainbow and an exploding one as well. The students made kites from paper plates and streamers. They had a blast trying to fly them outside.

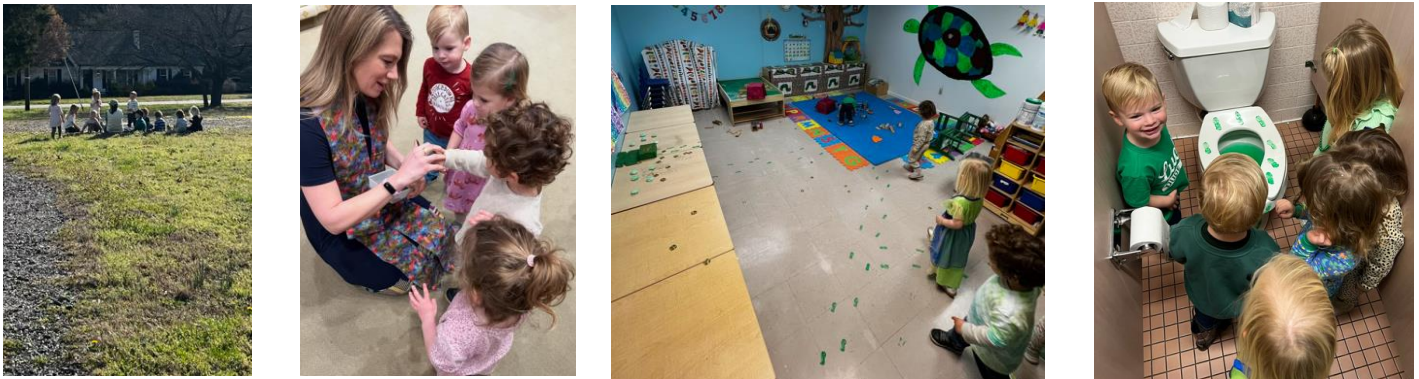

March was a very busy month. With everything we did, we also were able to introduce the letters V, U, R, and K, the numbers 22, 23, 24 and 25, and work with the diamond shape. We look forward to the month of April and Spring Break.

Teachers Karen & Devin

The big event in March was our visitors: the leprechauns. They visited the school overnight, so on March 17th, we arrived to a huge mess. Unfortunately, the trap we set for them was empty. The rest of the month was spent transitioning from winter to spring with a lot of time spent outside. We planted some more potatoes in the garden since the squirrels ate the ones we planted earlier. Hopefully, we will be able to harvest them before the end of school. We also took nature walks to see all the changes that spring has in store for us. We found daffodils, dandelions, and leaves coming out on the trees. As always, we continued to work on letters, numbers, shapes, and colors. Happy Spring!

Teacher Martha of the Music and Art Studio

March started out with Music classes playing their own colorful melodies on glockenspiels which helped with learning of the concept of melody. The little Leprechauns enjoyed dancing and singing to a variety of St. Patrick Day Songs. In April, Music will learn about dynamic markings, learning to play and sing softly and loudly.

Art classes began with creating/composing colorful melodies. We then made colorful pipping Chicks to celebrate the beginning of Spring. Art classes will make some egg carton Easter projects in April. After Easter, Art will begin working on a school wide special art project that will be much cuter than what we sometimes find slithering in our yards.

Coach Jess

This month we focused on lots of outdoor playtime and celebrated St. Patrick's Day. We played leprechaun tag and hopped on shamrocks. We did some shamrock flashcards, ran "over the rainbow" in my hula hoop game, and picked up shamrocks and placed them in my pot of gold! We also worked on our balance and did some outdoor yoga. Some of the younger classrooms had a musical parade. Next month, we will be celebrating Easter!

**** KidFit Camps are available all summer! ****

Thank you for letting me spend time with your children! Coach Jess

Señora Mercedes

¡Hola parents! Feliz primavera!

Happy Spring! We have had a great month.

The Sea Turtles class finished their lesson about farm animals and started a new lesson about Los Números, the numbers. They enjoyed counting to ten while we made snowballs and then we colored a new number each week. They have been learning about vegetables and loved to pick their favorite one. They also love the video about veggies https://www.youtube.com/watch?v=XSbQ0ceV1cs&list=RDXSbQ0ceV1cs&start_radio=1 and continue to enjoy the videos about animals, <https://www.youtube.com/watch?v=YwYckV5hLjI> and colors, <https://www.youtube.com/watch?v=DsRkoZGaoEM&t=53s>.

The Starfish class continued to work on their number book, My Spanish Counting Book. They have continued to take turns picking their favorite fruits and vegetables and watching some videos

<https://www.youtube.com/watch?v=N9TTN5smxcs&t=50s> and

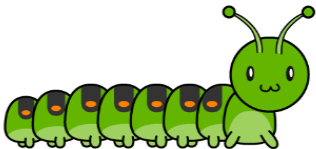

https://www.youtube.com/watch?v=XSbQ0ceV1cs&list=RDXSbQ0ceV1cs&start_radio=1.

The Stingrays class continued their lesson about Los Números. These worksheets are very detailed, full of different items to color, and they are doing a fantastic job! They continued practicing their numbers watching their favorite number video!

<https://www.youtube.com/watch?v=zzhHrQbHZMA&t=25s>. The Sea Otters class learned about Los Meses del Año, The Months of the Year. For the last two weeks, they have been working on a new number lesson that should last several weeks. They have also been learning about vegetables and continued practicing their colors. ¡Hasta pronto!

For The Fridge...

Date	Kids' Version	Activity	Notes
April 8 th & 9 th Tuesday & Wednesday		EB Hall Spring Pictures!	A wonderful Mothers' Day gift for Grammie! More info to come!
April 14 th – 18 th Monday - Friday		Spring Break!	Enjoy your time with family and friends!
April 20 th Sunday		Happy Easter!	The church welcomes you to join us for worship at 10:00.
April 21 st Monday		School Re-opens	We cannot WAIT to have you back!
May 11 th Sunday		Happy Mothers' Day!	Feel the L♥VE, Mom!
May 13 th Tuesday Time TBA		Annual Art Show	Be there or be square 😊 More info to come.
May 23 rd Friday		The Last Day of School	We will miss you! CONGRATULATIONS to our rising Kindergarteners!
